ESTIMATES ALBERTA WHEAT CROP 80,000,000 BUSHELS OF ABOUT HALF OF 1928 YIELD.
MANAGER OF NATIONAL ELEVATOR COMPANY RETURNS FROM 100-MILE CROP INSPECTION TOUR OF PROVINCE -- HIGHER PRICE OF WHEAT WILL BE INCENTIVE TO HARVEST SMALL CROPS

Calgary, July 25.—Alberta's 1929 wheat crop should total about 80,000,000 bushels, approximately half of the 1928 crop, according to an official statement made by R. J. Munson, manager of the National Elevator company, who returned Friday from a 100-mile crop inspection tour through all sections of the province. He was away eight days.

This estimate, which places the average yield per acre at about 11½ bushels of winter and spring wheat, is calculated upon the anticipation that very little of the present crop will be lost by other frost or hail. Mr. Munson said. It was also estimated in anticipation of a fair amount of rain, and favorable harvest weather being received.

The higher price of wheat will be an incentive to harvest small crops that ordinarily would have been considered worthless while to reap. Mr. Munson said. The combines will also be an inducement to harvest very poor crops.

Mr. Munson's estimate of approximate acreages for various districts and of approximate yields in these districts are as follows: 500,000 acres of wheat east of Calgary, average 16 bushels to the acre, yield 8,000,000 bushels; 2,000,000 acres of wheat from Vegreville east on main line of C. P. R. to Saskatchewan boundary and south on main line of C. P. R. to Bassano, average six bushels to the acre, yield 12,000,000 bushels; 1,500,000 acres from Edmonton west to B. C. boundary and east to Vegreville and south to Bassano, average 18 bushels to the acre, yield 12,500,000 bushels; 500,000

acres in Peace River district to average 12 bushels to the acre, yield 6,000,000 bushels; 200,000 acres north of main line of C. N. R. east of Edmonton, average 12 bushels to the acre, yield 2,400,000 bushels; 7,000,000 bushels, leaving Calgary on July 12, Mr. Munson went to Lethbridge, then to Macleod and returned to Calgary. He next went north and traversed the province in all directions from the capital. He came back to the city and then inspected the Drumheller and the Goose Lake line area.

CLOUDS HANG HEAVILY OVER INDUSTRY, U. R.—DEADLOCK IN COTTON TRADE AFFECTS HALF A MILLION OPERATIVES

London, July 25.—(C. P.)—The clouds are rising in Manchuria but they hang heavily over British industry. London newspapers are more concerned with the three-fold crisis in British industry than with the Chinese-Russian dispute. The deadlock in the cotton trade over the employment notice of a reduction of 12.5 per cent. in wages continues. Unless settlement is reached, half a million operatives will be locked out at the end of the week. A similar situation is developing in the wool trade. Employers in this great industry have submitted to the joint industrial council of the wool industry an application for all round reduction in wages. The amount of reduction is not announced, but it is understood to be about 10 per cent.

The miners continue their demand for repeal of the eight hour day act. Premier Ramsey MacDonald is making a statement on the government's position today in the house of commons.

Meanwhile the labor newspaper, the Daily Herald, argues that "in the final analysis, the remedy lies with basic re-organization of industry."

It's always safe to park alongside a new car. It won't spare your fenders as it backs out.

MACDONALD ANNOUNCES CUT BRITISH PROGRAM NAVAL CONSTRUCTION.—GOVERNMENT DECIDES TO SUSPEND WORK ON TWO CRUISERS, CANCEL BUILDING OF DEPOSIT SHIP AND TWO CONTRACTS FOR SUBMARINES—PREMIER IS GOING TO VISIT U. S. IN OCTOBER

London, July 24.—Hon. Ramsay MacDonald announced in the house today that the British government had decided to suspend work on the cruisers Surrey and Northumberland, to cancel the building of the marine deposit ship Maritime, and to cancel two contracts for submarines and to slow down dockyard work and other naval construction.

Visit U. S. in October
London, July 24.—Premier Ramsay MacDonald announced in the house of commons this afternoon that he would probably visit the United States in October.

Mr. MacDonald said the British naval construction program of 1929, 1930 would further be considered before any further commitments are entered into.

Meeting With Hawes
London, July 24.—Ambassador MacDonald of the United States spent some time today with Premier Ramsay MacDonald just prior to the weekly meeting of the British cabinet.

Today's deliberations of the cabinet are preliminary to a statement the premier has promised to make in the house concerning the naval construction program.

The conference between the ambassador and the premier strengthened the belief that the government's announcement may throw light on the progress of the disarmament negotiations with the United States.

In addition to the naval question the cabinet was expected to have taken up three other outstanding matters of foreign policy.

(1) The coming conference on the

Young plan.
(2) Development in seeking resumption of relations with Soviet Russia, and
(3) The situation in the Far East. The Russian note accepting Great Britain's invitation to discuss a basis for the resumption of relations is expected to be presented some time today by the Norwegian diplomatic representative.

Quoted Sir Austen
London, July 24.—First Lord of Admiralty Alexander Henderson in the house today, a statement of Sir Austen Chamberlain on February 8, 1928, that "preparations for war with the U. S. have never been and never will be a basis of our policy in any case."

The statement of the first lord of the admiralty was met with a question whether it was the Labor government's intention to rule out entirely the United States as a possible enemy.

LUMBER FREE LIST, SINGLE DUTY ON, IS U. S. FORECAST

Washington, July 25.—(C. P.)—Possibility that the senate finance committee will retain the luxury tax on shingles and will return lumber to the free list, was seen here today as the Republican members of the committee began their work of considering changes in the income bill. The bill will practically be re-written.

Although it has been generally predicted that the finance committee would knock out the house increases in building materials, it was disclosed today that some Republicans feel there is more argument for free lumber than free shingles. President Hoover is supposed to be in favor of changes in the income bill, talked the matter over with him.

Telegraph companies have regular press messages to express congratulations on almost all occasions except the birth of twins.

TRY TO SETTLE RUSSO-CHINA CONTROVERSY—BOTH SIDES REPORTED READY FOR AGREEMENT ON RAILWAY MATTER.—SEVERAL FAVORABLE PRESENTS POINT TO PEACE

Tokio, July 24.—Address from Manchuria today indicated that the Chinese and Russian authorities were endeavoring to get together a peaceful settlement of the Chinese Eastern Railway controversy. Reports from Chang Chow to the Japanese News Agency Reager, that M. Molotov, Russian cabinet general, had arrived there yesterday from Harbin this morning. He was accompanied by the Chinese commissioner of foreign affairs in Harbin.

The crucial general meet Chang Tso-lin, head of the Kirin province government, and chief lieutenant of Chang Hsueh-liang, governor of Manchuria. The conference was regarded as a significant approach to direct Russo-Chinese contact which a peaceful settlement might be arranged. Several other incidents also pointed in the same direction.

British Military Forces
London, July 24.—The British government has no intention of increasing the number of British battalions in China in the near future.

Answering questions in the house common, Right Hon. Thomas Shaw, secretary of war, gave this assurance yesterday. The minister declined to say whether the number of the present British forces in China were adequate or too large.

At present there are six British battalions and one battalion of Indian troops stationed in China. The minister said.

Charge Against Soviet
Manchuria, China, July 24.—The north-eastern provincial governments of China yesterday issued a long declaration in which it was declared that Soviet Russia had actually begun hostilities by the seizure of Chinese cargo boats and freight trains and by sending airplanes over Chinese territory.

An English translation of the message was given out here and it was said that the Chinese version would be issued at Nanking. It declared that apparently this action by Russia will lead to a breach of the Kellogg anti-war pact.

Trying to Avert War
London, July 25.—While suggestions have been made that Great Britain should take steps to summon a meeting of the league council to deal with the Russo-Chinese crisis, Right Hon. Arthur Henderson takes the ground that it is not an easy matter to pull the machinery of the league into action when one party to a dispute is a member of the league and the other is not a member. So Britain, with France and the United States, is trying to avert war between Russia and China by invoking the Kellogg anti-war pact, to which both the disputants are signatories.

"War in the ordinary sense of the term," the Yorkshire Post says today, "is not the chosen instrument of the Soviet for purposes of its nationalist and imperialist aims. Soviet Russia, as everybody knows, has developed an altogether different weapon, namely: communist intrigue within the country which she desires to dominate."

NEW CROP WILL GO ON MARKET AT \$1 POOL PAYMENT
Calgary, July 25.—One dollar a bushel will be the initial payment on wheat for grain delivered to the 1929-30 crop, according to an announcement made Tuesday morning at the Alberta Wheat Pool office.

Last fall, when a bad slump in wheat prices occurred the initial payment was lowered from \$1.00 to 50 cents, but the previous initial payment will be issued this fall.

Remuneration of an interim payment on the 1928 crop to be issued soon has been circulated throughout the country, but the Wheat Pool of Canada would make no comment upon the rumor.

THE COMPLIMENT
Chief Clerk: "I notice your work lately, Miss Phipps, has been performed in a most perfect manner."

Miss Phipps: "Oh, thank you so much."—London Opinion.

CANADIAN PACIFIC RAILWAY COMPANY CROP REPORT
Winnipeg, Man. July 22.—(C. P.)—The Canadian Pacific Railway is reporting that the crop in some districts intensify the need of rain on the prairies.

Winnipeg, Man. July 22.—(C. P.)—The Canadian Pacific Railway is reporting that the crop in some districts intensify the need of rain on the prairies. A large percentage of the crop is now in seed and some of the early varieties in flower and milk stage on straw ranging from 14 to 20 inches, with some shorter and some fields considerably higher, moisture being of course, the factor of growth. Data and barley are backward and generally so the short side, with some of the former and much of the latter in the head, but require much moisture to produce even a fair crop of feed in the drought districts.

Taking the situation as a whole, it is difficult to definitely forecast the outcome of the present spotty weather. The crop, which depends on receipt of frequent rain to develop and fill the heads already started, much of the summer grain is heading up well, but stable, and early spring wheat crops are almost a failure, and are being abandoned or used for pasture, this being particularly the case in north-eastern and central Alberta. Wheat and south eastern Saskatchewan, and at scattered points in Manitoba, Hay and clover cutting and cutting of grain commenced about the latter part of the week, and cutting of grain commenced on Friday. No damage from hail has been reported.

Yes...you can reduce without giving up Candy

As long as you do not eat more food and sweets than your body requires, you can eat candy just as freely as any other food. Just regulate your daily diet so that a certain quantity of candy is included in it and not eaten as an extra—and you will find it is a valuable energy builder. And children definitely need wholesome candy. Give them some regularly after each meal.

Kaiser Can Return, Exclusion Law Ends

Berlin, July 23.—Germany's law for the defense of the republic, the measure which has excluded the former Kaiser Wilhelm from returning to Germany, expired at midnight last night, but so far as could be ascertained today nobody was worrying about it.

The greater part of Berlin's press even failed to call attention to it. As the years go on it is felt here the aged former monarch sees no hope of his people rallying to him. He himself has stated often he will return only at a majority's demand.

The saloons can never come back now. All the corners are occupied by filling stations.

The would-be seem rotten to a materialist who can't get any material.

SOUTHERN ALBERTA BOYS' CAMP

The Southern Alberta Boys' Camp was held July 15-22, when 22 teenage boys from Lethbridge, Taber, Barons, Nobleford, Turin, Pincher Creek and Macleod met with their leaders for a week to take a real vacation. The camp was situated about three miles east of Monarch on the Old Man river and was one of the most suitable camp sites in Alberta, being nicely hidden from traffic and crowds while possessing the best facilities for field and water sports. It was a holiday for all and equally strenuous for Lads and Leaders.

Rev. Dr. Melvin of Lethbridge assumed responsibility for an adequate supply of food with an occasional treat and a most delightful religious programme for the Sunday afternoon and eve.

Mrs. Banks of Lethbridge had charge of the cooking and was the very first known camp cook that never heard one word of complaint. The meals were all prompt, abundant, wholesome and appetizing. The boys furnished the human equivalent of several of the boys called at different times and brought treats for their own which were always shared with the whole camp as a special after meals. Mr. Grady of Macleod sent a treat for the last day.

The camp was under the direction of Mr. Harold Mann of Sylvan Lake, assisted by Arthur Kinsky of Calgary. The daily programme was appropriately divided between spiritual, mental, physical and social activities. No lullabys were necessary to induce sleep.

Rev. Austin G. Gray of Nobleford conducted the Bible Study, being necessarily absent for one day his place was taken by Rev. J. F. Kitchin, M. A., B. D. of Macleod, who also conducted the Camp-fire story hour by giving "Jean Valjean" in five evenings. The Bible Study was the life of Jesus especially adapted for teenage students. The camp-fire programmes were especially popular as they furnished opportunity for individual initiative, small group competitions, individual challenges and a fine tribal spirit de corps.

One disappointment was keenly felt though bravely borne. Rev. G. H. Villet, secretary of the camp, who had spent much time and energy previous to the meeting, was necessarily detained from most of the camp on account of the illness of Mrs. Villet. The boys remembered this misfortune in a suitable resolution of sympathy.

Success crowned the efforts of every department, but the chief joy of the leader was the contribution of the boys themselves. Under their popular Grand Chief, Harper Prosser, and the Tribal Chiefs Clarence Soebere and Charles Knight the thirty braves in three tribes viz. Wild Cats, Eagles and Hawks, determined to set a new record for Trail Rangers camps. The response to the whistle was 100% prompt and the reaction to orders ideal. Neither sickness nor accident distressed anyone. Several boys learned to swim. The Gospel stories of Jesus and his work became magnetic for many of the lads. A splendid fraternalism prevailed and the students felt free to ask any questions of the leaders. A most candid attitude was taken by the leaders.

Many fine friendships were formed among the boys that will tend to better citizenship for the future generation.

A distinct altruism was manifest throughout in the effort to distribute provisions and treats and honors and offices without fear or favor. The individual sought to promote the standing of the tribe and each to restrain or assert himself for the increased comfort and well-being of the whole group.

Encourage the boys of your group, your home and community to attend the next camp of Trail Rangers, it will prepare him for better service in mature manhood.

Never give up. When you fail to make a living at anything else, do like others and become a writer.

LETHBRIDGE & MACLEOD

EVERY CITIZEN OF THIS TOWN AND EVERY RESIDENT of THE DISTRICT

is interested in the

GROWTH AND DEVELOPMENT OF THIS COMMUNITY

Remember Then That:

The business of a town is its very life-blood.

The stores and business houses are not alone for the merchants.

Prosperous merchants will make the community prosper.

The more buyers there are in a town, the greater "turn over" the merchants will have, and thus the more they will be able to reduce prices and increase the quality of the goods they sell.

Thus By Trading at Home

with the home town merchants the people thus become the builders of their own community.

No True Citizen

will stunt the natural growth and expansion of his home town by fostering the mail order business of far away communities.

Buy At Home

not to help the merchants, but to help the home community and yourself.
